FROM: Judge David G. Campbell
Chair, Advisory Committee on Federal Rules of Civil Procedure

RE: Proposed Amendments to the Federal Rules of Civil Procedure

DATE: June 14, 2014

Over the course of the last four years, the Advisory Committee on the Federal Rules of Civil Procedure has developed, published, and refined a set of proposed amendments that will implement conclusions reached at a May 2010 Conference on Civil Litigation held at Duke University Law School. The Committee has also proposed and published amendments that would abrogate Rule 84 and the forms appended to the civil rules, and make a modest change to Rule 55. Final versions of the proposals were approved unanimously by the Committee at its meeting in Portland, Oregon on April 10-11, 2014, and approved unanimously by the Standing Committee at its meeting in Washington, D.C. on May 29-30, 2014.

This report explains the proposed amendments. The text of the proposed rules and the proposed Advisory Committee Notes immediately follow this report. The Committee respectfully requests that you forward the proposed amendments for consideration by the Judicial Conference, the Supreme Court, and Congress.

I. THE DUKE CONFERENCE.

The 2010 Duke Conference was organized by the Committee for the specific purpose of examining the state of civil litigation in federal courts and exploring better means to achieve Rule 1's goal of the just, speedy, and inexpensive determination of every action. The Committee invited 200 participants to attend, and all but one accepted. Participants were selected to ensure diverse views and expertise, and included trial and appellate judges from federal and state courts; plaintiff, defense, and public interest lawyers; in-house counsel from governments and corporations; and many law professors. Empirical studies were conducted in advance of the conference by the Federal Judicial Center ("FJC"), bar associations, private and public interest research groups, and academics. More than seventy judges, lawyers, and academics made presentations to the conference, followed by a broad-ranging discussion among all participants. The Conference was streamed live by the FJC.

The conference planning committee and its chair, Judge John Koeltl of the Southern District of New York, spent more than one year assembling the panels and commissioning, coordinating, and reviewing the empirical studies and papers. Materials prepared for the Conference can be found at <http://www.uscourts.gov>, and include more than 40 papers, 80 presentations, and 25 compilations of empirical research. The Duke Law Review published some of the papers in Volume 60, Number 3 (December 2010).

The Conference concluded that federal civil litigation works reasonably well –major restructuring of the system is not needed. There was near-unanimous agreement, however, that the disposition of civil actions could be improved by advancing cooperation among parties, proportionality in the use of available procedures, and early judicial case management. A panel on e-discovery unanimously recommended that the Committee draft a rule to deal with the preservation and loss of electronically stored information ("ESI").

Following the conference, the Committee created a Duke Subcommittee, chaired by Judge Koeltl, to consider recommendations made during the Duke Conference. The Committee also assigned the existing Discovery Subcommittee to draft a rule addressing the preservation and loss of ESI. The work of these subcommittees led to two categories of proposed amendments discussed below: the Duke proposals drafted by the Duke Subcommittee, and proposed new Rule 37(e) drafted by the Discovery Subcommittee. The proposed abrogation of Rule 84 and the proposed amendment to Rule 55 were developed independently of the Duke Conference initiatives.

This report will discuss separately the Duke proposals, proposed Rule 37(e), the abrogation of Rule 84, and the amendment to Rule 55. Additional insight can be gained by reviewing the proposed rule language and committee notes in the Appendix.

II. THE DUKE PROPOSALS.

In a report to the Chief Justice following the Duke Conference, the Committee provided this summary of key conference conclusions: "What is needed can be described in two words – cooperation and proportionality – and one phrase – sustained, active, hands-on judicial case

management.” Since the conference, the Committee and others have sought to promote cooperation, proportionality, and active judicial case management through several means.

First, the FJC has sought to develop enhanced education programs. Among other measures, in 2013 the FJC published a new Benchbook for Federal District Court Judges with a new, comprehensive chapter on judicial case management written with substantial input from members of the Committee and the Standing Committee.

Second, the Committee and the National Employment Lawyers Association (“NELA”) worked cooperatively with the Institute for Advancement of the American Legal System (“IAALS”) to develop protocols for initial disclosures in employment cases. The protocols were developed by a team of experienced plaintiff and defense lawyers and include substantial mandatory disclosures required of both sides at the beginning of employment cases. The protocols are now being used by more than 50 federal district judges. The FJC and the Committee intend to monitor this pilot program and other innovative changes made in several state and federal courts.

Third, the Committee developed proposed rule amendments through the Duke Subcommittee. The Subcommittee began with a list of proposals made at the Duke Conference and held numerous conference calls, circulated drafts of proposed rules, and sponsored a mini-conference with 25 invited judges, lawyers, and law professors to discuss possible rule amendments. The Subcommittee presented recommendations for full discussion by the Committee and the Standing Committee during meetings held in 2011, 2012, and 2013.

The proposed Duke amendments were published as a package in August 2013 along with the other proposed amendments discussed in this report. More than 2,300 written comments were received and more than 120 witnesses appeared and addressed the Committee in public hearings held in Washington, D.C., Phoenix, and Dallas. Following the public comment process, the Subcommittee withdrew some proposals, amended others, and proposed the package of amendments discussed below.

We believe that this process has resulted in fully-informed rulemaking at its best. The original Duke Conference, the lengthy and detailed deliberations of the Duke Subcommittee, the mini-conference held by the Subcommittee, repeated reviews of the proposals by the full Committee and the Standing Committee, and the vigorous public comment process have provided a sound basis for proposing changes to the civil rules.

Rather than discuss the proposed Duke amendments in numerical rule order, this report will address the discovery proposals, followed by proposals on judicial case management and cooperation.

A. Discovery Proposals.

1. Withdrawn Proposals.

The proposals published last August sought to encourage more active case management and advance the proportional use of discovery by amending the presumptive numerical limits on discovery. The intent was to promote efficiency and prompt a discussion early in each case about the amount of discovery needed to resolve the dispute. Under these proposals, Rules 30 and 31 would have been amended to reduce from 10 to 5 the presumptive number of depositions permitted for plaintiffs, defendants, and third-party defendants; Rule 30(d) would have been amended to reduce the presumptive time limit for an oral deposition from 7 hours to 6 hours; Rule 33 would have been amended to reduce from 25 to 15 the presumptive number of interrogatories a party may serve on any other party; and a presumptive limit of 25 would have been introduced for requests to admit under Rule 36, excluding requests to admit the genuineness of documents.

These proposals received some support in the public comment process, but they also encountered fierce resistance. Many expressed fear that the new presumptive limits would become hard limits in some courts and would deprive parties of the evidence needed to prove their claims or defenses. Some asserted that many types of cases, including cases that seek relatively modest monetary recoveries, require more than 5 depositions. Fears were expressed that opposing parties could not be relied upon to recognize and agree to the reasonable number needed; that agreement among the parties might require unwarranted trade-offs in other areas; and that the showing now required to justify an 11th or 12th deposition would be needed to justify a 6th or 7th deposition, reducing the overall number of depositions permitted under the rules.

After reviewing the public comments, the Subcommittee and Committee decided to withdraw these recommendations. The intent of the proposals was never to limit discovery unnecessarily, but many worried that the changes would have that effect. The Committee concluded that it could promote the goals of proportionality and effective judicial case management through other proposed rule changes, such as the renewed emphasis on proportionality and steps to promote earlier and more informed case management, without raising the concerns spawned by the new presumptive limits.

2. Amendments to Rule 26(b)(1): Four Elements.

The proposed amendments to Rule 26(b)(1) include four elements: (1) the factors included in present Rule 26(b)(2)(C)(iii) are moved up to become part of the scope of discovery in Rule 26(b)(1), identifying elements to be considered in determining whether discovery is proportional to the needs of the case; (2) language regarding the discovery of sources of information is removed as unnecessary; (3) the distinction between discovery of information relevant to the parties' claims or defenses and discovery of information relevant to the subject matter of the action, on a showing of good cause, is eliminated; (4) the sentence allowing discovery of information "reasonably calculated to lead to the discovery of admissible evidence" is rewritten. Each proposal will be discussed separately.

a. Scope of Discovery: Proportionality.

There was widespread agreement at the Duke Conference that discovery should be proportional to the needs of the case, but subsequent discussions at the mini-conference sponsored by the Subcommittee revealed significant discomfort with simply adding the word “proportional” to Rule 26(b)(1). Standing alone, the phrase seemed too open-ended, too dependent on the eye of the beholder. To provide clearer guidance, the Subcommittee recommended that the factors already prescribed by Rule 26(b)(2)(C)(iii), which currently are incorporated by cross-reference in Rule 26(b)(1), be relocated to Rule 26(b)(1) and included in the scope of discovery. Under this amendment, the first sentence of Rule 26(b)(1) would read as follows:

Parties may obtain discovery regarding any nonprivileged matter that is relevant to any party’s claim or defense and proportional to the needs of the case, considering the importance of the issues at stake in the action, the amount in controversy, the parties’ relative access to relevant information, the parties’ resources, the importance of the discovery in resolving the issues, and whether the burden or expense of the proposed discovery outweighs its likely benefit.¹

This proposal produced a division in the public comments. Many favored the proposal. They asserted that costs of discovery in civil litigation are too often out of proportion to the issues at stake in the litigation, resulting in cases not being filed or settlements made to avoid litigation costs regardless of the merits. They stated that disproportionate litigation costs bar many from access to federal courts and have resulted in a flight to other dispute resolution fora such as arbitration. They noted that the proportionality factors currently found in Rule 26(b)(2)(C)(iii) often are overlooked by courts and litigants, and that the proposed relocation of those factors to Rule 26(b)(1) will help achieve the just, speedy, and inexpensive determination of every action.

Many others saw proportionality as a new limit that would favor defendants. They criticized the factors from Rule 26(b)(2)(C)(iii) as subjective and so flexible as to defy uniform application. They asserted that “proportionality” will become a new blanket objection to all discovery requests. They were particularly concerned that proportionality would impose a new burden on the requesting party to justify each and every discovery request. Some argued that the proposed change is a solution in search of a problem – that discovery in civil litigation already is proportional to the needs of cases.

After considering these public comments carefully, the Committee remains convinced that transferring the Rule 26(b)(2)(C)(iii) factors to the scope of discovery, with some

¹The current version of this language in Rule 26(b)(2)(C)(iii) reads as follows: “On motion or on its own, the court must limit the frequency or extent of discovery otherwise allowed by these rules or by local rule if it determines that: . . . (iii) the burden or expense of the proposed discovery outweighs its likely benefit, considering the needs of the case, the amount in controversy, the parties’ resources, the importance of the issues at stake in the action, and the importance of the discovery in resolving the issues.”

modifications as described below, will improve the rules governing discovery. The Committee reaches this conclusion for three primary reasons.

Findings from the Duke Conference.

As already noted, a principal conclusion of the Duke Conference was that discovery in civil litigation would more often achieve the goals of Rule 1 through an increased emphasis on proportionality. This conclusion was expressed often by speakers and panels at the conference and was supported by a number of surveys. In its report to the Chief Justice, the Committee observed that “[o]ne area of consensus in the various surveys . . . was that district or magistrate judges must be considerably more involved in managing each case from the outset, to tailor the motions practice and shape the discovery to the reasonable needs of the case.”

The FJC prepared a closed-case survey for the Duke Conference. The survey questioned lawyers in 3,550 cases terminated in federal district courts for the last quarter of 2008. Although the survey found that a majority of lawyers thought the discovery in their case generated the “right amount” of information, and more than half reported that the costs of discovery were the “right amount” in proportion to their clients’ stakes in the case, a quarter of attorneys viewed discovery costs in their cases as too high relative to their clients’ stakes in the case. A little less than a third reported that discovery costs increased or greatly increased the likelihood of settlement, or caused the case to settle, with that number increasing to 35.5% of plaintiff attorneys and 39.9% of defendant attorneys in cases that actually settled. On the question of whether the cost of litigating in federal court, including the cost of discovery, had caused at least one client to settle a case that would not have settled but for the cost, those representing primarily defendants and those representing both plaintiffs and defendants agreed or strongly agreed 58.2% and 57.8% of the time, respectively, and those representing primarily plaintiffs agreed or strongly agreed 38.6% of the time. The FJC study revealed agreement among lawyers representing plaintiffs and defendants that the rules should be revised to enforce discovery obligations more effectively.

Other surveys prepared for the Duke Conference showed greater dissatisfaction with the costs of civil discovery. In surveys of lawyers from the American College of Trial Lawyers (“ACTL”), the ABA Section of Litigation, and NELA, more lawyers agreed than disagreed with the proposition that judges do not enforce Rule 26(b)(2)(C) to limit discovery. The ACTL Task Force on Discovery and IAALS reported on a survey of ACTL fellows, who generally tend to be more experienced trial lawyers than those in other groups. A primary conclusion from the survey was that today’s civil litigation system takes too long and costs too much, resulting in some deserving cases not being filed and others being settled to avoid the costs of litigation. Almost half of the ACTL respondents believed that discovery is abused in almost every case, with responses being essentially the same for both plaintiff and defense lawyers. The report reached this conclusion: “Proportionality should be the most important principle applied to all discovery.”

Surveys of ABA Section of Litigation and NELA attorneys found more than 80% agreement that discovery costs are disproportionately high in small cases, with more than 40% of respondents saying they are disproportionate in large cases. In the survey of the ABA Section of

Litigation, 78% percent of plaintiffs' attorneys, 91% of defense attorneys, and 94% of mixed-practice attorneys agreed that litigation costs are not proportional to the value of small cases, with 33% of plaintiffs' lawyers, 44% of defense lawyers, and 41% of mixed-practice lawyers agreeing that litigation costs are not proportional in large cases. In the NELA survey, which included primarily plaintiffs' lawyers, more than 80% said that litigation costs are not proportional to the value of small cases, with a fairly even split on whether they are proportional to the value of large cases. An IAALS survey of corporate counsel found 90% agreement with the proposition that discovery costs in federal court are not generally proportional to the needs of the case, and 80% disagreement with the suggestion that outcomes are driven more by the merits than by costs. In its report summarizing the results of some of the Duke empirical research, IAALS noted that between 61% and 76% of the respondents in the ABA, ACTL, and NELA surveys agreed that judges do not enforce the rules' existing proportionality limitations on their own.

The History of Proportionality in Rule 26.

The proportionality factors to be moved to Rule 26(b)(1) are not new. Most of them were added to Rule 26 in 1983 and originally resided in Rule 26(b)(1). The Committee's original intent was to promote more proportional discovery, as made clear in the 1983 Committee Note which explained that the change was intended "to guard against redundant or disproportionate discovery by giving the court authority to reduce the amount of discovery that may be directed to matters that are otherwise proper subjects of inquiry," and "to encourage judges to be more aggressive in identifying and discouraging discovery overuse." The 1983 amendments also added Rule 26(g), which now provides that a lawyer's signature on a discovery request, objection, or response constitutes a certification that it is "neither unreasonable nor unduly burdensome or expensive, considering the needs of the case, prior discovery in the case, the amount in controversy, and the importance of the issues at stake in the action." The 1983 amendments thus made proportionality a consideration for courts in limiting discovery and for lawyers in issuing and responding to discovery requests.

The proportionality factors were moved to Rule 26(b)(2)(C) in 1993 when section (b)(1) was divided, but their constraining influence on discovery remained important in the eyes of the Committee. The 1993 amendments added two new factors: whether "the burden or expense of the proposed discovery outweighs its likely benefit," and "the importance of the proposed discovery in resolving the issues." The 1993 Committee Note stated that "[t]he revisions in Rule 26(b)(2) are intended to provide the court with broader discretion to impose additional restrictions on the scope and extent of discovery[.]"

The proportionality factors were again addressed by the Committee in 2000. Rule 26(b)(1) was amended to state that "[a]ll discovery is subject to the limitations imposed by Rule 26(b)(2)(i), (ii), and (iii) [now Rule 26(b)(2)(C)]." The 2000 Committee Note explained that courts were not using the proportionality limitations as originally intended, and that "[t]his otherwise redundant cross-reference has been added to emphasize the need for active judicial use of subdivision (b)(2) to control excessive discovery."

As this summary illustrates, three previous Civil Rules Committees in three different decades have reached the same conclusion as the current Committee – that proportionality is an important and necessary feature of civil litigation in federal courts. And yet one of the primary conclusions of comments and surveys at the 2010 Duke Conference was that proportionality is still lacking in too many cases. The previous amendments have not had their desired effect. The Committee’s purpose in returning the proportionality factors to Rule 26(b)(1) is to make them an explicit component of the scope of discovery, requiring parties and courts alike to consider them when pursuing discovery and resolving discovery disputes.

Adjustments to the 26(b)(1) Proposal.

The Committee considered carefully the concerns expressed in public comments: that the move will shift the burden of proving proportionality to the party seeking discovery, that it will provide a new basis for refusing to provide discovery, and that it will increase litigation costs. None of these predicted outcomes is intended, and the proposed Committee Note has been revised to address them. The Note now explains that the change does not place a burden of proving proportionality on the party seeking discovery and explains how courts should apply the proportionality factors. The Note also states that the change does not authorize boilerplate refusals to provide discovery on the ground that it is not proportional, but should instead prompt a dialogue among the parties and, if necessary, the court, concerning the amount of discovery reasonably needed to resolve the case. The Committee remains convinced that the proportionality considerations will not increase the costs of litigation. To the contrary, the Committee believes that more proportional discovery will decrease the cost of resolving disputes without sacrificing fairness.

In response to public comments, the Committee also reversed the order of the initial proportionality factors to refer first to “the importance of the issues at stake” and second to “the amount in controversy.” This rearrangement adds prominence to the importance of the issues and avoids any implication that the amount in controversy is the most important concern. The Committee Note was also expanded to emphasize that courts should consider the private and public values at issue in the litigation – values that cannot be addressed by a monetary award. The Note discussion draws heavily on the Committee Note from 1983 to show that, from the beginning, the rule has been framed to recognize the importance of nonmonetary remedies and to ensure that parties seeking such remedies have sufficient discovery to prove their cases.

Also in response to public comments, the Committee added a new factor: “the parties’ relative access to relevant information.” This factor addresses the reality that some cases involve an asymmetric distribution of information. Courts should recognize that proportionality in asymmetric cases will often mean that one party must bear greater burdens in responding to discovery than the other party bears.

With these adjustments, the Committee believes that moving the factors from Rule 26(b)(2)(C) to Rule 26(b)(1) will satisfy the need for proportionality in more civil cases, as identified in the Duke Conference, while avoiding the concerns expressed in some public comments.

b. Discovery of Information in Aid of Discovery.

Rule 26(b)(1) now provides that discoverable matters include “the existence, description, nature, custody, condition, and location of any documents or other tangible things and the identity and location of persons who know of any discoverable matter.” The Committee believes that these words are no longer necessary. The discoverability of such information is well established. Because Rule 26 is more than twice as long as the next longest civil rule, the Committee believes that removing excess language is a positive step.

Some public comments expressed doubt that discovery of these matters is so well entrenched that the language is no longer needed. They urged the Committee to make clear in the Committee Note that this kind of discovery remains available. The Note has been revised to make this point.

c. Subject-Matter Discovery.

Before 2000, Rule 26(b)(1) provided for discovery of information “relevant to the subject matter involved in the pending action, whether it relates to the claim or defense of the party seeking discovery or to the claim or defense of any other party.” Responding to repeated suggestions that discovery should be confined to the parties’ claims or defenses, the Committee amended Rule 26(b)(1) in 2000 to narrow the scope of discovery to matters “relevant to any party’s claim or defense,” but preserved subject-matter discovery upon a showing of good cause. The 2000 Committee Note explained that the change was “designed to involve the court more actively in regulating the breadth of sweeping or contentious discovery.”

The Committee proposes that the reference to broader subject matter discovery, available upon a showing of good cause, be deleted. In the Committee’s experience, the subject matter provision is virtually never used, and the proper focus of discovery is on the claims and defenses in the litigation.

Only a small portion of the public comments addressed this proposal, with a majority favoring it. The Committee Note includes three examples from the 2000 Note of information that would remain discoverable as relevant to a claim or defense: other incidents similar to those at issue in the litigation, information about organizational arrangements or filing systems, and information that could be used to impeach a likely witness. The Committee Note also recognizes that if discovery relevant to the pleaded claims or defenses reveals information that would support new claims or defenses, the information can be used to support amended pleadings.

d. “Reasonably calculated to lead.”

The final proposed change in Rule 26(b)(1) deletes the sentence which reads: “Relevant information need not be admissible at the trial if the discovery appears reasonably calculated to lead to the discovery of admissible evidence.” The proposed amendment would replace this sentence with the following language: “Information within this scope of discovery need not be admissible in evidence to be discoverable.”

This change is intended to curtail reliance on the “reasonably calculated” phrase to define the scope of discovery. The phrase was never intended to have that purpose. The “reasonably calculated” language was added to the rules in 1946 because parties in depositions were objecting to relevant questions on the ground that the answers would not be admissible at trial. Inadmissibility was used to bar relevant discovery. The 1946 amendment sought to stop this practice with this language: “It is not ground for objection that the testimony will be inadmissible at the trial if the testimony sought appears reasonably calculated to lead to the discovery of admissible evidence.”

Recognizing that the sentence had this original intent and was never designed to define the scope of discovery, the Committee amended the sentence in 2000 to add the words “relevant information” at the beginning: “*Relevant information* need not be admissible at the trial if the discovery appears reasonably calculated to lead to the discovery of admissible evidence.” The Committee Note explained that “relevant means within the scope of discovery as defined in this subdivision [(b)(1)].” Thus, the “reasonably calculated” phrase applies only to information that is otherwise within the scope of discovery set forth in Rule 26(b)(1); it does not broaden the scope of discovery. As the 2000 Committee Note explained, any broader reading of “reasonably calculated” “might swallow any other limitation on the scope of discovery.”

Despite the original intent of the sentence and the 2000 clarification, lawyers and courts continue to cite the “reasonably calculated” language as defining the scope of discovery. Some even disregard the reference to admissibility, suggesting that any inquiry “reasonably calculated” to lead to something helpful in the litigation is fair game in discovery. The proposed amendment will eliminate this incorrect reading of Rule 26(b)(1) while preserving the rule that inadmissibility is not a basis for opposing discovery of relevant information.

Most of the comments opposing this change complained that it would eliminate a “bedrock” definition of the scope of discovery, reflecting the very misunderstanding the amendment is designed to correct.

3. Rule 26(b)(2)(C)(iii).

Rule 26(b)(2)(C)(iii) would be amended to reflect the move of the proportionality factors to Rule 26(b)(1).

4. Rule 26(c)(1): Allocation of Expenses.

Rule 26(c)(1)(B) would be amended to include “the allocation of expenses” among the terms that may be included in a protective order. Rule 26(c)(1) already authorizes an order to protect against “undue burden or expense,” and this includes authority to allow discovery only on condition that the requesting party bear part or all of the costs of responding. The Supreme Court has acknowledged that courts have that authority now, *Oppenheimer Fund, Inc. v. Sanders*, 437 U.S. 340, 358 (1978), and it is useful to make the authority explicit on the face of the rule to ensure that courts and the parties will consider this choice as an alternative to either denying requested discovery or ordering it despite the risk of imposing undue burdens and expense on the party who responds to the request.

The Committee Note explains that this clarification does not mean that cost-shifting should become a common practice. The assumption remains that the responding party ordinarily bears the costs of responding.

5. Rules 34 and 37(a): Specific Objections, Production, Withholding.

The Committee proposes three amendments to Rule 34. (A fourth, dealing with requests served before the Rule 26(f) conference, is described later.) The first requires that objections to requests to produce be stated “with specificity.” The second permits a responding party to state that it will produce copies of documents or ESI instead of permitting inspection, and should specify a reasonable time for the production. A corresponding change to Rule 37(a)(3)(B)(iv) adds authority to move for an order to compel production if “a party fails to produce documents” as requested. The third amendment to Rule 34 requires that an objection state whether any responsive materials are being withheld on the basis of the objection.

These amendments should eliminate three relatively frequent problems in the production of documents and ESI: the use of broad, boilerplate objections that provide little information about the true reason a party is objecting; responses that state various objections, produce some information, and do not indicate whether anything else has been withheld from discovery on the basis of the objections; and responses which state that responsive documents will be produced in due course, without providing any indication of when production will occur and which often are followed by long delays in production. All three practices lead to discovery disputes and are contrary to Rule 1’s goals of speedy and inexpensive litigation.

6. Early Discovery Requests: Rule 26(d)(2).

The Committee proposes to add Rule 26(d)(2) to allow a party to deliver a Rule 34 document production request before the Rule 26(f) meeting between the parties. For purposes of determining the date to respond, the request would be treated as having been served at the first Rule 26(f) meeting. Rule 34(b)(2)(A) would be amended by adding a parallel provision for the time to respond. The purpose of this change is to facilitate discussion between the parties at the Rule 26(f) meeting and with the court at the initial case management conference by providing concrete discovery proposals.

Public comments on this proposal were mixed. Some doubt that parties will seize this new opportunity. Others expressed concern that requests formed before the case management conference will be inappropriately broad. Lawyers who represent plaintiffs appeared more likely to use this opportunity to provide advance notice of what should be discussed at the Rule 26(f) meeting. The Committee continues to view this amendment as a worthwhile effort to focus early case management discussions.

B. Early Judicial Case Management.

The Committee recommends several changes to Rules 16 and 4 designed to promote earlier and more active judicial case management.

1. Rule 16.

Four sets of changes are proposed for Rule 16.

First, participants at the Duke Conference agreed that cases are resolved faster, fairer, and with less expense when judges manage them early and actively. An important part of this management is an initial case management conference where judges confer with parties about the needs of the case and an appropriate schedule for the litigation. To encourage case management conferences where direct exchanges occur, the Committee proposes that the words allowing a conference to be held “by telephone, mail, or other means” be deleted from Rule 16(b)(1)(B). The Committee Note explains that such a conference can be held by any means of direct simultaneous communication, including telephone. Rule 16(b)(1)(A) continues to allow the court to base a scheduling order on the parties’ Rule 26(f) report without holding a conference, but the change in the text and the Committee Note hopefully will encourage judges to engage in direct exchanges with the parties when warranted.

Second, the time for holding the scheduling conference is set at the earlier of 90 days after any defendant has been served (reduced from 120 days in the present rule) or 60 days after any defendant has appeared (reduced from 90 days in the present rule). The intent is to encourage early management of cases by judges. Recognizing that these time limits may not be appropriate in some cases, the proposal also allows the judge to set a later time on finding good cause. In response to concerns expressed by the Department of Justice, the Committee Note states that “[l]itigation involving complex issues, multiple parties, and large organizations, public or private, may be more likely to need extra time to establish meaningful collaboration between counsel and the people who can supply the information needed to participate in a useful way.”

Third, the proposed amendments add two subjects to the list of issues that may be addressed in a case management order: the preservation of ESI and agreements reached under Federal Rule of Evidence 502. ESI is a growing issue in civil litigation, and the Committee believes that parties and courts should be encouraged to address it early. Similarly, Rule 502 was designed in part to reduce the expense of producing ESI or other voluminous documents, and the parties and judges should consider its potential application early in the litigation. Parallel provisions are added to the subjects for the parties’ Rule 26(f) meeting.

Fourth, the proposed amendments identify another topic for discussion at the initial case management conference – whether the parties should be required to request a conference with the court before filing discovery motions. Many federal judges require such pre-motion conferences, and experience has shown them to be very effective in resolving discovery disputes quickly and inexpensively. The amendment seeks to encourage this practice by including it in the Rule 16 topics.

2. Rule 4(m): Time to Serve.

Rule 4(m) now sets 120 days as the time limit for serving the summons and complaint. The Committee initially sought to reduce this period to 60 days, but the public comments

persuaded the Committee to recommend a limit of 90 days. The intent, as with the similar Rule 16 change, is to get cases moving more quickly and shorten the overall length of litigation. The experience of the Committee is that most cases require far less than 120 days for service, and that some lawyers take more time than necessary simply because it is permitted under the rules.

Public comments noted that a 60-day service period could be problematic in cases with many defendants, defendants who are difficult to locate or serve, or defendants who must be served by the Marshals Service. Others suggested that a 60-day period would undercut the opportunity to request a waiver of service because little time would be left to effect service after a defendant refuses to waive service. After considering these and other comments, the Committee concluded that the time should be set at 90 days. Language has been added to the Committee Note recognizing that additional time will be needed in some cases.

C. Cooperation.

Rule 1 now provides that the civil rules “should be construed and administered to secure the just, speedy, and inexpensive determination of every action and proceeding.” The proposed amendment would provide that the rules “be construed, administered, *and employed by the court and the parties* to secure the just, speedy, and inexpensive determination of every action and proceeding.”

As already noted, cooperation among parties was a theme heavily emphasized at the Duke Conference. Cooperation has been vigorously urged by many other voices, and principles of cooperation have been embraced by concerned organizations and adopted by courts and bar associations. The Committee proposes that Rule 1 be amended to make clear that parties as well as courts have a responsibility to achieve the just, speedy, and inexpensive resolution of every action. The proposed Committee Note explains that “discussions of ways to improve the administration of civil justice regularly include pleas to discourage over-use, misuse, and abuse of procedural tools that increase cost and result in delay. Effective advocacy is consistent with – and indeed depends upon – cooperative and proportional use of procedure.”

The public comments expressed little opposition to the concept of cooperation, but some expressed concerns about the proposed amendment. One concern was that Rule 1 is iconic and should not be altered. Another was that this change may invite ill-founded attempts to seek sanctions for violating a duty to cooperate. To avoid any suggestion that the amendment authorizes such sanctions or somehow diminishes procedural rights provided elsewhere in the rules, the Committee Note provides: “This amendment does not create a new or independent source of sanctions. Neither does it abridge the scope of any other of these rules.”

The Committee recognizes that a rule amendment alone will not produce reasonable and cooperative behavior among litigants, but believes that the proposed amendment will provide a meaningful step in that direction. This change should be combined with continuing efforts to educate litigants and courts on the importance of cooperation in reducing unnecessary costs in civil litigation.

D. Summary: The Duke Proposals as a Whole.

The Committee views the Duke proposals as a package. While each proposed amendment must be judged on its own merits, the proposals are designed to work together. Case management will begin earlier, judges will be encouraged to communicate directly with the parties, relevant topics are emphasized for the initial case management conference, early Rule 34 requests will facilitate a more informed discussion of necessary discovery, proportionality will be considered by all participants, unnecessary discovery motions will be discouraged, and obstructive Rule 34 responses will be eliminated. At the same time, the change to Rule 1 will encourage parties to cooperate in achieving the just, speedy, and inexpensive resolution of every action. Combined with the continuing work of the FJC on judicial education and the continuing exploration of discovery protocols and other pilot projects, the Committee believes that these changes will promote worthwhile objectives identified at the Duke Conference and improve the federal civil litigation process.

III. RULE 37(e): FAILURE TO PRESERVE ESI.

Present Rule 37(e) was adopted in 2006 and provides: “Absent exceptional circumstances, a court may not impose sanctions under these rules on a party for failing to provide electronically stored information lost as a result of the routine, good-faith operation of an electronic information system.” The Committee recognized in 2006 that the continuing expansion of ESI might provide reasons to adopt a more detailed rule. A panel at the Duke Conference unanimously recommended that the time has come for such a rule.

The Committee agrees. The explosion of ESI in recent years has affected all aspects of civil litigation. Preservation of ESI is a major issue confronting parties and courts, and loss of ESI has produced a significant split in the circuits. Some circuits hold that adverse inference jury instructions (viewed by most as a serious sanction) can be imposed for the negligent loss of ESI. Others require a showing of bad faith.

The Committee has been credibly informed that persons and entities over-preserve ESI out of fear that some ESI might be lost, their actions might with hindsight be viewed as negligent, and they might be sued in a circuit that permits adverse inference instructions or other serious sanctions on the basis of negligence. Many entities described spending millions of dollars preserving ESI for litigation that may never be filed. Resolving the circuit split with a more uniform approach to lost ESI, and thereby reducing a primary incentive for over-preservation, has been recognized by the Committee as a worthwhile goal.

During the two years following the Duke Conference, the Discovery Subcommittee, now chaired by Judge Paul Grimm of the District of Maryland, considered several different approaches to drafting a new rule, including drafts that undertook to establish detailed preservation guidelines. These drafts started with an outline proposed by the Duke Conference panel which called for specific provisions on when the duty to preserve arises, its scope and duration in advance of litigation, and the sanctions or other measures a court can take when information is lost. The Subcommittee conducted research into existing spoliation law, canvassed statutes and regulations that impose preservation obligations, received comments and

suggestions from numerous sources (including proposed draft rules from some sources), and held a mini-conference in Dallas with 25 invited judges, lawyers, and academics to discuss possible approaches to an ESI-preservation rule.

The Subcommittee ultimately concluded that a detailed rule specifying the trigger, scope, and duration of a preservation obligation is not feasible. A rule that attempts to address these issues in detail simply cannot be applied to the wide variety of cases in federal court, and a rule that provides only general guidance on these issues would be of little value to anyone. The Subcommittee chose instead to craft a rule that addresses actions courts may take when ESI that should have been preserved is lost.

Thus, the proposed Rule 37(e) does not purport to create a duty to preserve. The new rule takes the duty as it is established by case law, which uniformly holds that a duty to preserve information arises when litigation is reasonably anticipated. Although some urged the Committee to eliminate any duty to preserve information before an action is actually filed in court, the Committee believes such a rule would result in the loss or destruction of much information needed for litigation. The Committee Note, responding to concerns expressed in public comments, also makes clear that this rule does not affect any common-law tort remedy for spoliation that may be established by state law.

Proposed Rule 37(e) applies when “electronically stored information that should have been preserved in the anticipation or conduct of litigation is lost because a party failed to take reasonable steps to preserve it, and it cannot be restored or replaced through additional discovery.” Subdivisions (e)(1) and (e)(2) then address actions a court may take when this situation arises.

A. Limiting the Rule to ESI.

Like current Rule 37(e), the proposed rule is limited to ESI. Although the Committee considered proposing a rule that would apply to all forms of information, it ultimately concluded that an ESI-only rule was appropriate for several reasons.

First, as already noted, the explosion of ESI in recent years has presented new and unprecedented challenges in civil litigation. This is the primary fact motivating an amendment of Rule 37(e).

Second, the remarkable growth of ESI will continue and even accelerate. One industry expert reported to the Committee that there will be some 26 billion devices on the Internet in six years – more than three for every person on earth. Significant amounts of ESI will be created and stored not only by sophisticated entities with large IT departments, but also by unsophisticated persons whose lives are recorded on their phones, tablets, cars, social media pages, and tools not even presently foreseen. Most of this information will be stored somewhere on remote servers, often referred to as the “cloud,” complicating the preservation task. Thus, the litigation challenges created by ESI and its loss will increase, not decrease, and will affect unsophisticated as well as sophisticated litigants.

Third, the law of spoliation for evidence other than ESI is well developed and longstanding, and should not be supplanted without good reason. There has been little complaint to the Committee about this body of law as applied to information other than ESI, and the Committee concludes that this law should be left undisturbed by a new rule designed to address the unprecedented challenges presented by ESI.

The Advisory Committee recognizes that its decision to confine Rule 37(e) to ESI could be debated. Some contend that there is no principled basis for distinguishing ESI from other forms of evidence, but repeated efforts made clear that it is very difficult to craft a rule that deals with failure to preserve tangible things. In addition, there are some clear practical distinctions between ESI and other kinds of evidence. ESI is created in volumes previously unheard of and often is duplicated in many places. The potential consequences of its loss in one location often will be less severe than the consequences of the loss of tangible evidence. ESI also is deleted or modified on a regular basis, frequently with no conscious action on the part of the person or entity that created it. These practical distinctions, the difficulty of writing a rule that covers all forms of evidence, as well as an appropriate respect for the spoliation law that has developed over centuries to deal with the loss of tangible evidence, all persuaded the Advisory Committee that the new Rule 37(e) should be limited to ESI.

B. Reasonable Steps to Preserve.

The proposed rule applies if ESI “that should have been preserved in the anticipation or conduct of litigation of litigation is lost because a party failed to take reasonable steps to preserve it.” The rule calls for reasonable steps, not perfection. As explained in the Committee Note, determining the reasonableness of the steps taken includes consideration of party resources and the proportionality of the efforts to preserve. The Note also recognizes that a party’s level of sophistication may bear on whether it should have realized that information should have been preserved.

C. Restoration or Replacement of Lost ESI.

If reasonable steps were not taken and information was lost as a result, the rule directs that the next focus should be on whether the lost information can be restored or replaced through additional discovery. As the Committee Note explains, nothing in this rule limits a court’s powers under Rules 16 and 26 to order discovery to achieve this purpose. At the same time, however, the quest for lost information should take account of whether the information likely was only marginally relevant or duplicative of other information that remains available.

D. Subdivision (e)(1).

Proposed Rule 37(e)(1) provides that the court, “upon finding prejudice to another party from loss of the information, may order measures no greater than necessary to cure the prejudice.” This proposal preserves broad trial court discretion to cure prejudice caused by the loss of ESI that cannot be remedied by restoration or replacement of the lost information. It further provides that the measures be no greater than necessary to cure the prejudice.

Proposed subdivision (e)(1) does not say which party bears the burden of proving prejudice. Many public comments raised concerns about assigning such burdens, noting that it often is difficult for an opposing party to prove it was prejudiced by the loss of information it never has seen. Under the proposed rule, each party is responsible for providing such information and argument as it can; the court may draw on its experience in addressing this or similar issues, and may ask one or another party, or all parties, for further information.

The proposed rule does not attempt to draw fine distinctions as to the measures a trial court may use to cure prejudice under (e)(1), but instead limits those measures in three general ways: there must be a finding of prejudice, the measures must be no greater than necessary to cure the prejudice, and the court may not impose the severe measures listed in subdivision (e)(2).

E. Subdivision (e)(2).

Proposed (e)(2) provides that the court:

only upon finding that the party acted with the intent to deprive another party of the information's use in the litigation, may:

- (A) presume that the lost information was unfavorable to the party;
- (B) instruct the jury that it may or must presume the information was unfavorable to the party; or
- (C) dismiss the action or enter a default judgment.

A primary purpose of this provision is to eliminate the circuit split on when a court may give an adverse inference jury instruction for the loss of ESI. As already noted, some circuits permit such instructions upon a showing of negligence, while others require bad faith. Subdivision (e)(2) permits adverse inference instructions only on a finding that the party "acted with the intent to deprive another party of the information's use in the litigation." This intent requirement is akin to bad faith, but is defined even more precisely. The Committee views this definition as consistent with the historical rationale for adverse inference instructions.

The Discovery Subcommittee analyzed the existing cases on the use of adverse inference instructions. Such instructions historically have been based on a logical conclusion: when a party destroys evidence for the purpose of preventing another party from using it in litigation, one reasonably can infer that the evidence was unfavorable to the destroying party. Some courts hold to this traditional rationale and limit adverse inference instructions to instances of bad faith loss of the information. *See, e.g., Aramburu v. Boeing Co.*, 112 F.3d 1398, 1407 (10th Cir. 1997) ("The adverse inference must be predicated on the bad faith of the party destroying the records. Mere negligence in losing or destroying records is not enough because it does not support an inference of consciousness of a weak case.") (citations omitted).

Circuits that permit adverse inference instructions on a showing of negligence adopt a different rationale: the adverse inference restores the evidentiary balance, and the party that lost

the information should bear the risk that it was unfavorable. *See, e.g., Residential Funding Corp. v. DeGeorge Finan. Corp.*, 306 F.3d 99 (2d Cir. 2002). Although this approach has some equitable appeal, the Committee has several concerns when it is applied to ESI. First, negligently lost information may have been favorable or unfavorable to the party that lost it – negligence does not necessarily reveal the nature of the lost information. Consequently, an adverse inference may do far more than restore the evidentiary balance; it may tip the balance in ways the lost evidence never would have. Second, in a world where ESI is more easily lost than tangible evidence, particularly by unsophisticated parties, the sanction of an adverse inference instruction imposes a heavy penalty for losses that are likely to become increasingly frequent as ESI multiplies. Third, permitting an adverse inference for negligence creates powerful incentives to over-preserve, often at great cost. Fourth, the ubiquitous nature of ESI and the fact that it often may be found in many locations presents less risk of severe prejudice from negligent loss than may be present due to the loss of tangible things or hard-copy documents.

These reasons have caused the Committee to conclude that the circuit split should be resolved in favor of the traditional reasons for an adverse inference. ESI-related adverse inferences drawn by courts when ruling on pretrial motions or ruling in bench trials, and adverse inference jury instructions, should be limited to cases where the party who lost the ESI did so with an intent to deprive the opposing party of its use in the litigation. Subdivision (e)(2) extends the logic of the mandatory adverse-inference instruction to the even more severe measures of dismissal or default. The Committee thought it incongruous to allow dismissal or default in circumstances that do not justify the instruction.

Subdivision (e)(2) covers any instruction that directs or permits the jury to infer from the loss of information that the information was in fact unfavorable to the party that lost it. The subdivision does not apply to jury instructions that do not involve such an inference. For example, subdivision (e)(2) would not prohibit a court from allowing the parties to present evidence to the jury concerning the loss and likely relevance of information and instructing the jury that it may consider that evidence, along with all the other evidence in the case, in making its decision. These measures, which would not involve instructing a jury that it may draw an adverse inference from loss of information, would be available under subdivision (e)(1) if no greater than necessary to cure prejudice. In addition, subdivision (e)(2) does not limit the discretion of courts to give traditional missing evidence instructions based on a party's failure to present evidence it has in its possession at the time of trial.

Subdivision (e)(2) does not include a requirement that the court find prejudice to the party deprived of the information. This is because the finding of intent required by the subdivision can support not only an inference that the lost information was unfavorable to the party that intentionally destroyed it, but also an inference that the opposing party was prejudiced by the loss of that favorable information.

The Committee Note states that courts should exercise caution in using the measures specified in (e)(2). Finding an intent to deprive another party of the lost information's use in the litigation does not require a court to adopt the measures listed in subdivision (e)(2). The remedy should fit the wrong, and the severe measures authorized by this subdivision should not be used

when the information lost was relatively unimportant or lesser measures such as those specified in subdivision (e)(1) would be sufficient to redress the loss.

IV. ABROGATION OF RULE 84.

The Federal Rules of Civil Procedure are followed by an Appendix of Forms. The Appendix includes 36 separate forms illustrating things such as the proper captions for pleadings, proper signature blocks, and forms for summonses, requests for waivers of service, complaints, answers, judgments, and other litigation documents. Rule 84 provides that the forms “suffice under these rules and illustrate the simplicity and brevity that these rules contemplate.”

Many of the forms are out of date. The sample complaints, for example, embrace far fewer causes of action than now exist in federal court and illustrate a simplicity of pleading that has not been used in many years. The increased use of Rule 12(b)(6) motions to dismiss, the enhanced pleading requirements of Rule 9 and some federal statutes, the proliferation of statutory and other causes of action, and the increased complexity of most modern cases have resulted in a detailed level of pleading that is far beyond that illustrated in the forms.

Amendment of the civil forms is cumbersome. It requires the same process as amendment of the civil rules themselves – amendments proposed by the Committee must be approved by the Standing Committee, the Judicial Conference, the Supreme Court, and Congress. Public notice and comment are also required. The process ordinarily takes at least three years.

In addition to being out of date and difficult to amend, the Committee’s perception was that the forms are rarely used. The Committee established a Rule 84 Subcommittee, chaired by Judge Gene Pratter of the Eastern District of Pennsylvania, to consider the current forms and the process of their revision, and to recommend possible changes. Members of the Subcommittee canvassed judges, law firms, public interest law offices, and individual lawyers, and found that virtually none of them use the forms.

Many alternative sources of civil forms are available. These include forms created by private publishing companies and a set of non-pleading forms created and maintained by a Forms Working Group at the Administrative Office of the United States Courts (“AO”). The Working Group consists of six federal judges and six clerks of court, and the forms they create in consultation with the various rules committees can be downloaded from the AO website at <http://www.uscourts.gov/FormsAndFees/Forms/CourtFormsByCategory.aspx>. A May 2012 survey of the websites maintained by the 94 federal district courts around the country found that 88 of the 94 either link electronically to the AO forms or post some of the AO forms on their websites. Only six of the 94 mention the Rule 84 forms on their websites or in their local rules, confirming that the rules forms are rarely used.

The Subcommittee ultimately recommended that the Committee get out of the forms business. The Committee agreed, and published a proposal in August 2013 to abrogate Rule 84 and eliminate the forms appended to the rules. The two exceptions to this recommendation are

forms 5 and 6, which are referenced in Rule 4 and would, under the proposal, be appended to that specific rule.

Very few of the public comments addressed the abrogation of Rule 84. Among the objections, most asserted that the elimination of the forms would be viewed as an indirect endorsement of the *Twombly* and *Iqbal* pleading standards. A few argued that the forms assist pro se litigants and new lawyers, but of these, only one stated that the writer had ever actually used the forms. The general lack of response to the Rule 84 proposal reinforced the Committee's view that the forms are seldom used.

After considering the public comments, the Committee continues to believe that the forms and Rule 84 should be eliminated. The forms are not used; revising them is a difficult and time-consuming process; other forms are readily available; and the Committee can better use its time addressing more relevant issues in the rules. The Committee continues to review the effects of *Twombly* and *Iqbal*. If it decides action is needed in this area, the more direct approach will be to amend the rules, not the forms.

V. RULE 55.

The Committee proposes that Rule 55(c) be amended to clarify that a court must apply Rule 60(b) only when asked to set aside a final judgment. The reason for the change is explained in the proposed Committee Note.

**PROPOSED AMENDMENTS TO THE
FEDERAL RULES OF CIVIL PROCEDURE***

1 **Rule 1. Scope and Purpose**

2 These rules govern the procedure in all civil actions
3 and proceedings in the United States district courts, except
4 as stated in Rule 81. They should be construed, ~~and~~
5 administered, and employed by the court and the parties to
6 secure the just, speedy, and inexpensive determination of
7 every action and proceeding.

Committee Note

Rule 1 is amended to emphasize that just as the court should construe and administer these rules to secure the just, speedy, and inexpensive determination of every action, so the parties share the responsibility to employ the rules in the same way. Most lawyers and parties cooperate to achieve these ends. But discussions of ways to improve the administration of civil justice regularly include pleas to discourage over-use, misuse, and abuse of procedural tools that increase cost and result in delay. Effective advocacy is

* New material is underlined; matter to be omitted is lined through.

2 FEDERAL RULES OF CIVIL PROCEDURE

consistent with — and indeed depends upon — cooperative and proportional use of procedure.

This amendment does not create a new or independent source of sanctions. Neither does it abridge the scope of any other of these rules.

1 **Rule 4. Summons**

2 * * * * *

3 **(m) Time Limit for Service.** If a defendant is not served
4 within ~~120~~90 days after the complaint is filed, the
5 court — on motion or on its own after notice to the
6 plaintiff — must dismiss the action without prejudice
7 against that defendant or order that service be made
8 within a specified time. But if the plaintiff shows
9 good cause for the failure, the court must extend the
10 time for service for an appropriate period. This
11 subdivision (m) does not apply to service in a foreign
12 country under Rule 4(f) or 4(j)(1) or to service of a
13 notice under Rule 71.1(d)(3)(A).

14 * * * * *

Committee Note

Subdivision (m). The presumptive time for serving a defendant is reduced from 120 days to 90 days. This

change, together with the shortened times for issuing a scheduling order set by amended Rule 16(b)(2), will reduce delay at the beginning of litigation.

Shortening the presumptive time for service will increase the frequency of occasions to extend the time for good cause. More time may be needed, for example, when a request to waive service fails, a defendant is difficult to serve, or a marshal is to make service in an in forma pauperis action.

The final sentence is amended to make it clear that the reference to Rule 4 in Rule 71.1(d)(3)(A) does not include Rule 4(m). Dismissal under Rule 4(m) for failure to make timely service would be inconsistent with the limits on dismissal established by Rule 71.1(i)(1)(C).

Shortening the time to serve under Rule 4(m) means that the time of the notice required by Rule 15(c)(1)(C) for relation back is also shortened.

1 **Rule 16. Pretrial Conferences; Scheduling; Management**

2 * * * * *

3 **(b) Scheduling.**

4 **(1) *Scheduling Order.*** Except in categories of
5 actions exempted by local rule, the district judge
6 — or a magistrate judge when authorized by
7 local rule — must issue a scheduling order:

8 **(A)** after receiving the parties' report under
9 Rule 26(f); or

10 **(B)** after consulting with the parties' attorneys
11 and any unrepresented parties at a
12 scheduling conference ~~by telephone, mail,~~
13 ~~or other means.~~

14 **(2) *Time to Issue.*** The judge must issue the
15 scheduling order as soon as practicable, but ~~in~~
16 ~~any event~~ unless the judge finds good cause for

17 delay, the judge must issue it within the earlier of
18 12090 days after any defendant has been served
19 with the complaint or 9060 days after any
20 defendant has appeared.

21 **(3) Contents of the Order.**

22 * * * * *

23 **(B) Permitted Contents.** The scheduling order
24 may:

25 * * * * *

26 **(iii)** provide for disclosure, ~~or~~ discovery,
27 or preservation of electronically
28 stored information;

29 **(iv)** include any agreements the parties
30 reach for asserting claims of
31 privilege or of protection as trial-
32 preparation material after

33 information is produced, including
34 agreements reached under Federal
35 Rule of Evidence 502;
36 (v) direct that before moving for an
37 order relating to discovery, the
38 movant must request a conference
39 with the court;
40 (vvi) set dates for pretrial conferences and
41 for trial; and
42 (vii) include other appropriate matters.
43 * * * * *

Committee Note

The provision for consulting at a scheduling conference by “telephone, mail, or other means” is deleted. A scheduling conference is more effective if the court and parties engage in direct simultaneous communication. The conference may be held in person, by telephone, or by more sophisticated electronic means.

The time to issue the scheduling order is reduced to the earlier of 90 days (not 120 days) after any defendant has been served, or 60 days (not 90 days) after any defendant has appeared. This change, together with the shortened time for making service under Rule 4(m), will reduce delay at the beginning of litigation. At the same time, a new provision recognizes that the court may find good cause to extend the time to issue the scheduling order. In some cases it may be that the parties cannot prepare adequately for a meaningful Rule 26(f) conference and then a scheduling conference in the time allowed. Litigation involving complex issues, multiple parties, and large organizations, public or private, may be more likely to need extra time to establish meaningful collaboration between counsel and the people who can supply the information needed to participate in a useful way. Because the time for the Rule 26(f) conference is geared to the time for the scheduling conference or order, an order extending the time for the scheduling conference will also extend the time for the Rule 26(f) conference. But in most cases it will be desirable to hold at least a first scheduling conference in the time set by the rule.

Three items are added to the list of permitted contents in Rule 16(b)(3)(B).

The order may provide for preservation of electronically stored information, a topic also added to the provisions of a discovery plan under Rule 26(f)(3)(C). Parallel amendments of Rule 37(e) recognize that a duty to preserve discoverable information may arise before an action is filed.

The order also may include agreements incorporated in a court order under Evidence Rule 502 controlling the effects of disclosure of information covered by attorney-client privilege or work-product protection, a topic also added to the provisions of a discovery plan under Rule 26(f)(3)(D).

Finally, the order may direct that before filing a motion for an order relating to discovery the movant must request a conference with the court. Many judges who hold such conferences find them an efficient way to resolve most discovery disputes without the delay and burdens attending a formal motion, but the decision whether to require such conferences is left to the discretion of the judge in each case.

1 **Rule 26. Duty to Disclose; General Provisions;**
2 **Governing Discovery**

3 * * * * *

4 **(b) Discovery Scope and Limits.**

5 (1) *Scope in General.* Unless otherwise limited by
6 court order, the scope of discovery is as follows:
7 Parties may obtain discovery regarding any
8 nonprivileged matter that is relevant to any
9 party's claim or defense and proportional to the
10 needs of the case, considering the importance of
11 the issues at stake in the action, the amount in
12 controversy, the parties' relative access to
13 relevant information, the parties' resources, the
14 importance of the discovery in resolving the
15 issues, and whether the burden or expense of the
16 proposed discovery outweighs its likely benefit.
17 Information within this scope of discovery need

18 not be admissible in evidence to be discoverable.
19 ~~— including the existence, description, nature,~~
20 ~~eustody, condition, and location of any~~
21 ~~documents or other tangible things and the~~
22 ~~identity and location of persons who know of~~
23 ~~any discoverable matter. For good cause, the~~
24 ~~court may order discovery of any matter relevant~~
25 ~~to the subject matter involved in the action.~~
26 ~~Relevant information need not be admissible at~~
27 ~~the trial if the discovery appears reasonably~~
28 ~~calculated to lead to the discovery of admissible~~
29 ~~evidence. All discovery is subject to the~~
30 ~~limitations imposed by Rule 26(b)(2)(C).~~

31 (2) *Limitations on Frequency and Extent.*

32 * * * * *

33 (C) *When Required.* On motion or on its own,
34 the court must limit the frequency or extent
35 of discovery otherwise allowed by these
36 rules or by local rule if it determines that:

37 * * * * *

38 (iii) ~~the burden or expense of the proposed~~
39 ~~discovery is outside the scope~~
40 ~~permitted by Rule 26(b)(1) outweighs~~
41 ~~its likely benefit, considering the~~
42 ~~needs of the case, the amount in~~
43 ~~controversy, the parties' resources, the~~
44 ~~importance of the issues at stake in the~~
45 ~~action, and the importance of the~~
46 ~~discovery in resolving the issues.~~

47 * * * * *

48 (c) **Protective Orders.**

49 (1) *In General.* A party or any person from whom
50 discovery is sought may move for a protective
51 order in the court where the action is pending —
52 or as an alternative on matters relating to a
53 deposition, in the court for the district where the
54 deposition will be taken. The motion must
55 include a certification that the movant has in
56 good faith conferred or attempted to confer with
57 other affected parties in an effort to resolve the
58 dispute without court action. The court may, for
59 good cause, issue an order to protect a party or
60 person from annoyance, embarrassment,
61 oppression, or undue burden or expense,
62 including one or more of the following:

63 * * * * *

64 (B) specifying terms, including time and
65 place or the allocation of expenses, for the
66 disclosure or discovery;

67 * * * * *

68 (d) **Timing and Sequence of Discovery.**

69 * * * * *

70 **(2) Early Rule 34 Requests.**

71 **(A) Time to Deliver.** More than 21 days after
72 the summons and complaint are served on a
73 party, a request under Rule 34 may be
74 delivered:

75 **(i) to that party by any other party, and**

76 **(ii) by that party to any plaintiff or to any**
77 **other party that has been served.**

78 **(B)** When Considered Served. The request is
79 considered to have been served at the first
80 Rule 26(f) conference.

81 **(23) Sequence.** ~~Unless, on motion,~~ the parties
82 stipulate or the court orders otherwise for the
83 parties' and witnesses' convenience and in the
84 interests of justice:

85 **(A)** methods of discovery may be used in any
86 sequence; and

87 **(B)** discovery by one party does not require any
88 other party to delay its discovery.

89 * * * * *

90 **(f) Conference of the Parties; Planning for Discovery.**

91 * * * * *

92 **(3) Discovery Plan.** A discovery plan must state the
93 parties' views and proposals on:

94

* * * * *

95

(C) any issues about disclosure, ~~or~~ discovery, or

96

preservation of electronically stored

97

information, including the form or forms in

98

which it should be produced;

99

(D) any issues about claims of privilege or of

100

protection as trial-preparation materials,

101

including — if the parties agree on a

102

procedure to assert these claims after

103

production — whether to ask the court to

104

include their agreement in an order under

105

Federal Rule of Evidence 502;

106

* * * * *

Committee Note

Rule 26(b)(1) is changed in several ways.

Information is discoverable under revised Rule 26(b)(1) if it is relevant to any party's claim or defense and is proportional to the needs of the case. The considerations that bear on proportionality are moved from present Rule 26(b)(2)(C)(iii), slightly rearranged and with one addition.

Most of what now appears in Rule 26(b)(2)(C)(iii) was first adopted in 1983. The 1983 provision was explicitly adopted as part of the scope of discovery defined by Rule 26(b)(1). Rule 26(b)(1) directed the court to limit the frequency or extent of use of discovery if it determined that "the discovery is unduly burdensome or expensive, taking into account the needs of the case, the amount in controversy, limitations on the parties' resources, and the importance of the issues at stake in the litigation." At the same time, Rule 26(g) was added. Rule 26(g) provided that signing a discovery request, response, or objection certified that the request, response, or objection was "not unreasonable or unduly burdensome or expensive, given the needs of the case, the discovery already had in the case, the amount in controversy, and the importance of the issues at stake in the litigation." The parties thus shared the responsibility to honor these limits on the scope of discovery.

The 1983 Committee Note stated that the new provisions were added "to deal with the problem of over-discovery. The objective is to guard against redundant or disproportionate discovery by giving the court authority to reduce the amount of discovery that may be directed to matters that are otherwise proper subjects of inquiry. The

new sentence is intended to encourage judges to be more aggressive in identifying and discouraging discovery overuse. The grounds mentioned in the amended rule for limiting discovery reflect the existing practice of many courts in issuing protective orders under Rule 26(c). . . . On the whole, however, district judges have been reluctant to limit the use of the discovery devices.”

The clear focus of the 1983 provisions may have been softened, although inadvertently, by the amendments made in 1993. The 1993 Committee Note explained: “[F]ormer paragraph (b)(1) [was] subdivided into two paragraphs for ease of reference and to avoid renumbering of paragraphs (3) and (4).” Subdividing the paragraphs, however, was done in a way that could be read to separate the proportionality provisions as “limitations,” no longer an integral part of the (b)(1) scope provisions. That appearance was immediately offset by the next statement in the Note: “Textual changes are then made in new paragraph (2) to enable the court to keep tighter rein on the extent of discovery.”

The 1993 amendments added two factors to the considerations that bear on limiting discovery: whether “the burden or expense of the proposed discovery outweighs its likely benefit,” and “the importance of the proposed discovery in resolving the issues.” Addressing these and other limitations added by the 1993 discovery amendments, the Committee Note stated that “[t]he revisions in Rule 26(b)(2) are intended to provide the court with broader discretion to impose additional restrictions on the scope and extent of discovery”

The relationship between Rule 26(b)(1) and (2) was further addressed by an amendment made in 2000 that added a new sentence at the end of (b)(1): “All discovery is subject to the limitations imposed by Rule 26(b)(2)(i), (ii), and (iii)[now Rule 26(b)(2)(C)].” The Committee Note recognized that “[t]hese limitations apply to discovery that is otherwise within the scope of subdivision (b)(1).” It explained that the Committee had been told repeatedly that courts were not using these limitations as originally intended. “This otherwise redundant cross-reference has been added to emphasize the need for active judicial use of subdivision (b)(2) to control excessive discovery.”

The present amendment restores the proportionality factors to their original place in defining the scope of discovery. This change reinforces the Rule 26(g) obligation of the parties to consider these factors in making discovery requests, responses, or objections.

Restoring the proportionality calculation to Rule 26(b)(1) does not change the existing responsibilities of the court and the parties to consider proportionality, and the change does not place on the party seeking discovery the burden of addressing all proportionality considerations.

Nor is the change intended to permit the opposing party to refuse discovery simply by making a boilerplate objection that it is not proportional. The parties and the court have a collective responsibility to consider the proportionality of all discovery and consider it in resolving discovery disputes.

The parties may begin discovery without a full appreciation of the factors that bear on proportionality. A party requesting discovery, for example, may have little information about the burden or expense of responding. A party requested to provide discovery may have little information about the importance of the discovery in resolving the issues as understood by the requesting party. Many of these uncertainties should be addressed and reduced in the parties' Rule 26(f) conference and in scheduling and pretrial conferences with the court. But if the parties continue to disagree, the discovery dispute could be brought before the court and the parties' responsibilities would remain as they have been since 1983. A party claiming undue burden or expense ordinarily has far better information — perhaps the only information — with respect to that part of the determination. A party claiming that a request is important to resolve the issues should be able to explain the ways in which the underlying information bears on the issues as that party understands them. The court's responsibility, using all the information provided by the parties, is to consider these and all the other factors in reaching a case-specific determination of the appropriate scope of discovery.

The direction to consider the parties' relative access to relevant information adds new text to provide explicit focus on considerations already implicit in present Rule 26(b)(2)(C)(iii). Some cases involve what often is called "information asymmetry." One party — often an individual plaintiff — may have very little discoverable information. The other party may have vast amounts of information, including information that can be readily

retrieved and information that is more difficult to retrieve. In practice these circumstances often mean that the burden of responding to discovery lies heavier on the party who has more information, and properly so.

Restoring proportionality as an express component of the scope of discovery warrants repetition of parts of the 1983 and 1993 Committee Notes that must not be lost from sight. The 1983 Committee Note explained that “[t]he rule contemplates greater judicial involvement in the discovery process and thus acknowledges the reality that it cannot always operate on a self-regulating basis.” The 1993 Committee Note further observed that “[t]he information explosion of recent decades has greatly increased both the potential cost of wide-ranging discovery and the potential for discovery to be used as an instrument for delay or oppression.” What seemed an explosion in 1993 has been exacerbated by the advent of e-discovery. The present amendment again reflects the need for continuing and close judicial involvement in the cases that do not yield readily to the ideal of effective party management. It is expected that discovery will be effectively managed by the parties in many cases. But there will be important occasions for judicial management, both when the parties are legitimately unable to resolve important differences and when the parties fall short of effective, cooperative management on their own.

It also is important to repeat the caution that the monetary stakes are only one factor, to be balanced against other factors. The 1983 Committee Note recognized “the significance of the substantive issues, as measured in

philosophic, social, or institutional terms. Thus the rule recognizes that many cases in public policy spheres, such as employment practices, free speech, and other matters, may have importance far beyond the monetary amount involved.” Many other substantive areas also may involve litigation that seeks relatively small amounts of money, or no money at all, but that seeks to vindicate vitally important personal or public values.

So too, consideration of the parties’ resources does not foreclose discovery requests addressed to an impecunious party, nor justify unlimited discovery requests addressed to a wealthy party. The 1983 Committee Note cautioned that “[t]he court must apply the standards in an even-handed manner that will prevent use of discovery to wage a war of attrition or as a device to coerce a party, whether financially weak or affluent.”

The burden or expense of proposed discovery should be determined in a realistic way. This includes the burden or expense of producing electronically stored information. Computer-based methods of searching such information continue to develop, particularly for cases involving large volumes of electronically stored information. Courts and parties should be willing to consider the opportunities for reducing the burden or expense of discovery as reliable means of searching electronically stored information become available.

A portion of present Rule 26(b)(1) is omitted from the proposed revision. After allowing discovery of any matter relevant to any party’s claim or defense, the present rule

adds: “including the existence, description, nature, custody, condition, and location of any documents or other tangible things and the identity and location of persons who know of any discoverable matter.” Discovery of such matters is so deeply entrenched in practice that it is no longer necessary to clutter the long text of Rule 26 with these examples. The discovery identified in these examples should still be permitted under the revised rule when relevant and proportional to the needs of the case. Framing intelligent requests for electronically stored information, for example, may require detailed information about another party’s information systems and other information resources.

The amendment deletes the former provision authorizing the court, for good cause, to order discovery of any matter relevant to the subject matter involved in the action. The Committee has been informed that this language is rarely invoked. Proportional discovery relevant to any party’s claim or defense suffices, given a proper understanding of what is relevant to a claim or defense. The distinction between matter relevant to a claim or defense and matter relevant to the subject matter was introduced in 2000. The 2000 Note offered three examples of information that, suitably focused, would be relevant to the parties’ claims or defenses. The examples were “other incidents of the same type, or involving the same product”; “information about organizational arrangements or filing systems”; and “information that could be used to impeach a likely witness.” Such discovery is not foreclosed by the amendments. Discovery that is relevant to the parties’ claims or defenses may also support amendment of the

pleadings to add a new claim or defense that affects the scope of discovery.

The former provision for discovery of relevant but inadmissible information that appears “reasonably calculated to lead to the discovery of admissible evidence” is also deleted. The phrase has been used by some, incorrectly, to define the scope of discovery. As the Committee Note to the 2000 amendments observed, use of the “reasonably calculated” phrase to define the scope of discovery “might swallow any other limitation on the scope of discovery.” The 2000 amendments sought to prevent such misuse by adding the word “Relevant” at the beginning of the sentence, making clear that “‘relevant’ means within the scope of discovery as defined in this subdivision” The “reasonably calculated” phrase has continued to create problems, however, and is removed by these amendments. It is replaced by the direct statement that “Information within this scope of discovery need not be admissible in evidence to be discoverable.” Discovery of nonprivileged information not admissible in evidence remains available so long as it is otherwise within the scope of discovery.

Rule 26(b)(2)(C)(iii) is amended to reflect the transfer of the considerations that bear on proportionality to Rule 26(b)(1). The court still must limit the frequency or extent of proposed discovery, on motion or on its own, if it is outside the scope permitted by Rule 26(b)(1).

Rule 26(c)(1)(B) is amended to include an express recognition of protective orders that allocate expenses for

disclosure or discovery. Authority to enter such orders is included in the present rule, and courts already exercise this authority. Explicit recognition will forestall the temptation some parties may feel to contest this authority. Recognizing the authority does not imply that cost-shifting should become a common practice. Courts and parties should continue to assume that a responding party ordinarily bears the costs of responding.

Rule 26(d)(2) is added to allow a party to deliver Rule 34 requests to another party more than 21 days after that party has been served even though the parties have not yet had a required Rule 26(f) conference. Delivery may be made by any party to the party that has been served, and by that party to any plaintiff and any other party that has been served. Delivery does not count as service; the requests are considered to be served at the first Rule 26(f) conference. Under Rule 34(b)(2)(A) the time to respond runs from service. This relaxation of the discovery moratorium is designed to facilitate focused discussion during the Rule 26(f) conference. Discussion at the conference may produce changes in the requests. The opportunity for advance scrutiny of requests delivered before the Rule 26(f) conference should not affect a decision whether to allow additional time to respond.

Rule 26(d)(3) is renumbered and amended to recognize that the parties may stipulate to case-specific sequences of discovery.

Rule 26(f)(3) is amended in parallel with Rule 16(b)(3) to add two items to the discovery plan —

issues about preserving electronically stored information and court orders under Evidence Rule 502.

1 **Rule 30. Depositions by Oral Examination**

2 **(a) When a Deposition May Be Taken.**

3 * * * * *

4 **(2) *With Leave.*** A party must obtain leave of court,
5 and the court must grant leave to the extent
6 consistent with Rule 26(b)(1) and (2):

7 * * * * *

8 **(d) Duration; Sanction; Motion to Terminate or Limit.**

9 **(1) *Duration.*** Unless otherwise stipulated or
10 ordered by the court, a deposition is limited to
11 one day of 7 hours. The court must allow
12 additional time consistent with Rule 26(b)(1) and
13 (2) if needed to fairly examine the deponent or if
14 the deponent, another person, or any other
15 circumstance impedes or delays the examination.

16 * * * * *

Committee Note

Rule 30 is amended in parallel with Rules 31 and 33 to reflect the recognition of proportionality in Rule 26(b)(1).

1 **Rule 31. Depositions by Written Questions**

2 **(a) When a Deposition May Be Taken.**

3 * * * * *

4 **(2) *With Leave.*** A party must obtain leave of court,
5 and the court must grant leave to the extent
6 consistent with Rule 26(b)(1) and (2):

7 * * * * *

Committee Note

Rule 31 is amended in parallel with Rules 30 and 33 to reflect the recognition of proportionality in Rule 26(b)(1).

1 **Rule 33. Interrogatories to Parties**

2 **(a) In General.**

3 (1) *Number.* Unless otherwise stipulated or ordered
4 by the court, a party may serve on any other
5 party no more than 25 written interrogatories,
6 including all discrete subparts. Leave to serve
7 additional interrogatories may be granted to the
8 extent consistent with Rule 26(b)(1) and (2).

9 * * * * *

Committee Note

Rule 33 is amended in parallel with Rules 30 and 31 to reflect the recognition of proportionality in Rule 26(b)(1).

1 **Rule 34. Producing Documents, Electronically Stored**
2 **Information, and Tangible Things, or**
3 **Entering onto Land, for Inspection and**
4 **Other Purposes**

5 * * * * *

6 **(b) Procedure.**

7 * * * * *

8 **(2) Responses and Objections.**

9 **(A) Time to Respond.** The party to whom the
10 request is directed must respond in writing
11 within 30 days after being served or — if
12 the request was delivered under
13 Rule 26(d)(2) — within 30 days after the
14 parties' first Rule 26(f) conference. A
15 shorter or longer time may be stipulated to
16 under Rule 29 or be ordered by the court.

17 **(B) Responding to Each Item.** For each item or
18 category, the response must either state that

19 inspection and related activities will be
20 permitted as requested or state ~~an objection~~
21 with specificity the grounds for objecting to
22 the request, including the reasons. The
23 responding party may state that it will
24 produce copies of documents or of
25 electronically stored information instead of
26 permitting inspection. The production must
27 then be completed no later than the time for
28 inspection specified in the request or
29 another reasonable time specified in the
30 response.

31 (C) *Objections.* An objection must state
32 whether any responsive materials are being
33 withheld on the basis of that objection. An

34 objection to part of a request must specify

35 the part and permit inspection of the rest.

36 * * * * *

Committee Note

Several amendments are made in Rule 34, aimed at reducing the potential to impose unreasonable burdens by objections to requests to produce.

Rule 34(b)(2)(A) is amended to fit with new Rule 26(d)(2). The time to respond to a Rule 34 request delivered before the parties' Rule 26(f) conference is 30 days after the first Rule 26(f) conference.

Rule 34(b)(2)(B) is amended to require that objections to Rule 34 requests be stated with specificity. This provision adopts the language of Rule 33(b)(4), eliminating any doubt that less specific objections might be suitable under Rule 34. The specificity of the objection ties to the new provision in Rule 34(b)(2)(C) directing that an objection must state whether any responsive materials are being withheld on the basis of that objection. An objection may state that a request is overbroad, but if the objection recognizes that some part of the request is appropriate the objection should state the scope that is not overbroad. Examples would be a statement that the responding party will limit the search to documents or electronically stored information created within a given period of time prior to

the events in suit, or to specified sources. When there is such an objection, the statement of what has been withheld can properly identify as matters “withheld” anything beyond the scope of the search specified in the objection.

Rule 34(b)(2)(B) is further amended to reflect the common practice of producing copies of documents or electronically stored information rather than simply permitting inspection. The response to the request must state that copies will be produced. The production must be completed either by the time for inspection specified in the request or by another reasonable time specifically identified in the response. When it is necessary to make the production in stages the response should specify the beginning and end dates of the production.

Rule 34(b)(2)(C) is amended to provide that an objection to a Rule 34 request must state whether anything is being withheld on the basis of the objection. This amendment should end the confusion that frequently arises when a producing party states several objections and still produces information, leaving the requesting party uncertain whether any relevant and responsive information has been withheld on the basis of the objections. The producing party does not need to provide a detailed description or log of all documents withheld, but does need to alert other parties to the fact that documents have been withheld and thereby facilitate an informed discussion of the objection. An objection that states the limits that have controlled the search for responsive and relevant materials qualifies as a statement that the materials have been “withheld.”

1 **Rule 37. Failure to Make Disclosures or to Cooperate**
2 **in Discovery; Sanctions**

3 **(a) Motion for an Order Compelling Disclosure or**
4 **Discovery.**

5 * * * * *

6 **(3) *Specific Motions.***

7 * * * * *

8 **(B) *To Compel a Discovery Response.*** A party
9 seeking discovery may move for an order
10 compelling an answer, designation,
11 production, or inspection. This motion may
12 be made if:

13 * * * * *

14 **(iv)** a party fails to produce documents or
15 fails to respond that inspection will be
16 permitted — or fails to permit

17 inspection — as requested under
18 Rule 34.

19 * * * * *

20 (e) **Failure to ~~Provide~~Preserve Electronically Stored**
21 **Information.** ~~Absent exceptional circumstances, a~~
22 ~~court may not impose sanctions under these rules on a~~
23 ~~party for failing to provide electronically stored~~
24 ~~information lost as a result of the routine, good-faith~~
25 ~~operation of an electronic information system.~~If
26 electronically stored information that should have
27 been preserved in the anticipation or conduct of
28 litigation is lost because a party failed to take
29 reasonable steps to preserve it, and it cannot be
30 restored or replaced through additional discovery, the
31 court:

- 32 **(1)** upon finding prejudice to another party from loss
33 of the information, may order measures no
34 greater than necessary to cure the prejudice; or
- 35 **(2)** only upon finding that the party acted with the
36 intent to deprive another party of the
37 information's use in the litigation may:
- 38 **(A)** presume that the lost information was
39 unfavorable to the party;
- 40 **(B)** instruct the jury that it may or must
41 presume the information was unfavorable to
42 the party; or
- 43 **(C)** dismiss the action or enter a default
44 judgment.

45 * * * * *

Committee Note

Subdivision (a). Rule 37(a)(3)(B)(iv) is amended to reflect the common practice of producing copies of documents or electronically stored information rather than simply permitting inspection. This change brings item (iv) into line with paragraph (B), which provides a motion for an order compelling “production, or inspection.”

Subdivision (e). Present Rule 37(e), adopted in 2006, provides: “Absent exceptional circumstances, a court may not impose sanctions under these rules on a party for failing to provide electronically stored information lost as a result of the routine, good-faith operation of an electronic information system.” This limited rule has not adequately addressed the serious problems resulting from the continued exponential growth in the volume of such information. Federal circuits have established significantly different standards for imposing sanctions or curative measures on parties who fail to preserve electronically stored information. These developments have caused litigants to expend excessive effort and money on preservation in order to avoid the risk of severe sanctions if a court finds they did not do enough.

New Rule 37(e) replaces the 2006 rule. It authorizes and specifies measures a court may employ if information that should have been preserved is lost, and specifies the findings necessary to justify these measures. It therefore forecloses reliance on inherent authority or state law to determine when certain measures should be used. The rule does not affect the validity of an independent tort claim for

spoliation if state law applies in a case and authorizes the claim.

The new rule applies only to electronically stored information, also the focus of the 2006 rule. It applies only when such information is lost. Because electronically stored information often exists in multiple locations, loss from one source may often be harmless when substitute information can be found elsewhere.

The new rule applies only if the lost information should have been preserved in the anticipation or conduct of litigation and the party failed to take reasonable steps to preserve it. Many court decisions hold that potential litigants have a duty to preserve relevant information when litigation is reasonably foreseeable. Rule 37(e) is based on this common-law duty; it does not attempt to create a new duty to preserve. The rule does not apply when information is lost before a duty to preserve arises.

In applying the rule, a court may need to decide whether and when a duty to preserve arose. Courts should consider the extent to which a party was on notice that litigation was likely and that the information would be relevant. A variety of events may alert a party to the prospect of litigation. Often these events provide only limited information about that prospective litigation, however, so that the scope of information that should be preserved may remain uncertain. It is important not to be blinded to this reality by hindsight arising from familiarity with an action as it is actually filed.

Although the rule focuses on the common-law obligation to preserve in the anticipation or conduct of litigation, courts may sometimes consider whether there was an independent requirement that the lost information be preserved. Such requirements arise from many sources — statutes, administrative regulations, an order in another case, or a party’s own information-retention protocols. The court should be sensitive, however, to the fact that such independent preservation requirements may be addressed to a wide variety of concerns unrelated to the current litigation. The fact that a party had an independent obligation to preserve information does not necessarily mean that it had such a duty with respect to the litigation, and the fact that the party failed to observe some other preservation obligation does not itself prove that its efforts to preserve were not reasonable with respect to a particular case.

The duty to preserve may in some instances be triggered or clarified by a court order in the case. Preservation orders may become more common, in part because Rules 16(b)(3)(B)(iii) and 26(f)(3)(C) are amended to encourage discovery plans and orders that address preservation. Once litigation has commenced, if the parties cannot reach agreement about preservation issues, promptly seeking judicial guidance about the extent of reasonable preservation may be important.

The rule applies only if the information was lost because the party failed to take reasonable steps to preserve the information. Due to the ever-increasing volume of electronically stored information and the multitude of

devices that generate such information, perfection in preserving all relevant electronically stored information is often impossible. As under the current rule, the routine, good-faith operation of an electronic information system would be a relevant factor for the court to consider in evaluating whether a party failed to take reasonable steps to preserve lost information, although the prospect of litigation may call for reasonable steps to preserve information by intervening in that routine operation. This rule recognizes that “reasonable steps” to preserve suffice; it does not call for perfection. The court should be sensitive to the party’s sophistication with regard to litigation in evaluating preservation efforts; some litigants, particularly individual litigants, may be less familiar with preservation obligations than others who have considerable experience in litigation.

Because the rule calls only for reasonable steps to preserve, it is inapplicable when the loss of information occurs despite the party’s reasonable steps to preserve. For example, the information may not be in the party’s control. Or information the party has preserved may be destroyed by events outside the party’s control — the computer room may be flooded, a “cloud” service may fail, a malign software attack may disrupt a storage system, and so on. Courts may, however, need to assess the extent to which a party knew of and protected against such risks.

Another factor in evaluating the reasonableness of preservation efforts is proportionality. The court should be sensitive to party resources; aggressive preservation efforts can be extremely costly, and parties (including

governmental parties) may have limited staff and resources to devote to those efforts. A party may act reasonably by choosing a less costly form of information preservation, if it is substantially as effective as more costly forms. It is important that counsel become familiar with their clients' information systems and digital data — including social media — to address these issues. A party urging that preservation requests are disproportionate may need to provide specifics about these matters in order to enable meaningful discussion of the appropriate preservation regime.

When a party fails to take reasonable steps to preserve electronically stored information that should have been preserved in the anticipation or conduct of litigation, and the information is lost as a result, Rule 37(e) directs that the initial focus should be on whether the lost information can be restored or replaced through additional discovery. Nothing in the rule limits the court's powers under Rules 16 and 26 to authorize additional discovery. Orders under Rule 26(b)(2)(B) regarding discovery from sources that would ordinarily be considered inaccessible or under Rule 26(c)(1)(B) on allocation of expenses may be pertinent to solving such problems. If the information is restored or replaced, no further measures should be taken. At the same time, it is important to emphasize that efforts to restore or replace lost information through discovery should be proportional to the apparent importance of the lost information to claims or defenses in the litigation. For example, substantial measures should not be employed to restore or replace information that is marginally relevant or duplicative.

Subdivision (e)(1). This subdivision applies only if information should have been preserved in the anticipation or conduct of litigation, a party failed to take reasonable steps to preserve the information, information was lost as a result, and the information could not be restored or replaced by additional discovery. In addition, a court may resort to (e)(1) measures only “upon finding prejudice to another party from loss of the information.” An evaluation of prejudice from the loss of information necessarily includes an evaluation of the information’s importance in the litigation.

The rule does not place a burden of proving or disproving prejudice on one party or the other. Determining the content of lost information may be a difficult task in some cases, and placing the burden of proving prejudice on the party that did not lose the information may be unfair. In other situations, however, the content of the lost information may be fairly evident, the information may appear to be unimportant, or the abundance of preserved information may appear sufficient to meet the needs of all parties. Requiring the party seeking curative measures to prove prejudice may be reasonable in such situations. The rule leaves judges with discretion to determine how best to assess prejudice in particular cases.

Once a finding of prejudice is made, the court is authorized to employ measures “no greater than necessary to cure the prejudice.” The range of such measures is quite broad if they are necessary for this purpose. There is no all-purpose hierarchy of the severity of various measures;

the severity of given measures must be calibrated in terms of their effect on the particular case. But authority to order measures no greater than necessary to cure prejudice does not require the court to adopt measures to cure every possible prejudicial effect. Much is entrusted to the court's discretion.

In an appropriate case, it may be that serious measures are necessary to cure prejudice found by the court, such as forbidding the party that failed to preserve information from putting on certain evidence, permitting the parties to present evidence and argument to the jury regarding the loss of information, or giving the jury instructions to assist in its evaluation of such evidence or argument, other than instructions to which subdivision (e)(2) applies. Care must be taken, however, to ensure that curative measures under subdivision (e)(1) do not have the effect of measures that are permitted under subdivision (e)(2) only on a finding of intent to deprive another party of the lost information's use in the litigation. An example of an inappropriate (e)(1) measure might be an order striking pleadings related to, or precluding a party from offering any evidence in support of, the central or only claim or defense in the case. On the other hand, it may be appropriate to exclude a specific item of evidence to offset prejudice caused by failure to preserve other evidence that might contradict the excluded item of evidence.

Subdivision (e)(2). This subdivision authorizes courts to use specified and very severe measures to address or deter failures to preserve electronically stored information, but only on finding that the party that lost the

information acted with the intent to deprive another party of the information's use in the litigation. It is designed to provide a uniform standard in federal court for use of these serious measures when addressing failure to preserve electronically stored information. It rejects cases such as *Residential Funding Corp. v. DeGeorge Financial Corp.*, 306 F.3d 99 (2d Cir. 2002), that authorize the giving of adverse-inference instructions on a finding of negligence or gross negligence.

Adverse-inference instructions were developed on the premise that a party's intentional loss or destruction of evidence to prevent its use in litigation gives rise to a reasonable inference that the evidence was unfavorable to the party responsible for loss or destruction of the evidence. Negligent or even grossly negligent behavior does not logically support that inference. Information lost through negligence may have been favorable to either party, including the party that lost it, and inferring that it was unfavorable to that party may tip the balance at trial in ways the lost information never would have. The better rule for the negligent or grossly negligent loss of electronically stored information is to preserve a broad range of measures to cure prejudice caused by its loss, but to limit the most severe measures to instances of intentional loss or destruction.

Similar reasons apply to limiting the court's authority to presume or infer that the lost information was unfavorable to the party who lost it when ruling on a pretrial motion or presiding at a bench trial. Subdivision (e)(2) limits the ability of courts to draw

adverse inferences based on the loss of information in these circumstances, permitting them only when a court finds that the information was lost with the intent to prevent its use in litigation.

Subdivision (e)(2) applies to jury instructions that permit or require the jury to presume or infer that lost information was unfavorable to the party that lost it. Thus, it covers any instruction that directs or permits the jury to infer from the loss of information that it was in fact unfavorable to the party that lost it. The subdivision does not apply to jury instructions that do not involve such an inference. For example, subdivision (e)(2) would not prohibit a court from allowing the parties to present evidence to the jury concerning the loss and likely relevance of information and instructing the jury that it may consider that evidence, along with all the other evidence in the case, in making its decision. These measures, which would not involve instructing a jury it may draw an adverse inference from loss of information, would be available under subdivision (e)(1) if no greater than necessary to cure prejudice. In addition, subdivision (e)(2) does not limit the discretion of courts to give traditional missing evidence instructions based on a party's failure to present evidence it has in its possession at the time of trial.

Subdivision (e)(2) requires a finding that the party acted with the intent to deprive another party of the information's use in the litigation. This finding may be made by the court when ruling on a pretrial motion, when presiding at a bench trial, or when deciding whether to give an adverse inference instruction at trial. If a court were to

conclude that the intent finding should be made by a jury, the court's instruction should make clear that the jury may infer from the loss of the information that it was unfavorable to the party that lost it only if the jury first finds that the party acted with the intent to deprive another party of the information's use in the litigation. If the jury does not make this finding, it may not infer from the loss that the information was unfavorable to the party that lost it.

Subdivision (e)(2) does not include a requirement that the court find prejudice to the party deprived of the information. This is because the finding of intent required by the subdivision can support not only an inference that the lost information was unfavorable to the party that intentionally destroyed it, but also an inference that the opposing party was prejudiced by the loss of information that would have favored its position. Subdivision (e)(2) does not require any further finding of prejudice.

Courts should exercise caution, however, in using the measures specified in (e)(2). Finding an intent to deprive another party of the lost information's use in the litigation does not require a court to adopt any of the measures listed in subdivision (e)(2). The remedy should fit the wrong, and the severe measures authorized by this subdivision should not be used when the information lost was relatively unimportant or lesser measures such as those specified in subdivision (e)(1) would be sufficient to redress the loss.

1 **Rule 55. Default; Default Judgment**

2 * * * * *

3 **(c) Setting Aside a Default or a Default Judgment.**

4 The court may set aside an entry of default for good
5 cause, and it may set aside a final default judgment
6 under Rule 60(b).

7 * * * * *

Committee Note

Rule 55(c) is amended to make plain the interplay between Rules 54(b), 55(c), and 60(b). A default judgment that does not dispose of all of the claims among all parties is not a final judgment unless the court directs entry of final judgment under Rule 54(b). Until final judgment is entered, Rule 54(b) allows revision of the default judgment at any time. The demanding standards set by Rule 60(b) apply only in seeking relief from a final judgment.

1 **Rule 84. Forms**

2 **[Abrogated (Apr. __, 2015, eff. Dec. 1, 2015).]**

3 ~~The forms in the Appendix suffice under these rules~~
4 ~~and illustrate the simplicity and brevity that these rules~~
5 ~~contemplate.~~

Committee Note

Rule 84 was adopted when the Civil Rules were established in 1938 “to indicate, subject to the provisions of these rules, the simplicity and brevity of statement which the rules contemplate.” The purpose of providing illustrations for the rules, although useful when the rules were adopted, has been fulfilled. Accordingly, recognizing that there are many excellent alternative sources for forms, including the Administrative Office of the United States Courts, Rule 84 and the Appendix of Forms are no longer necessary and have been abrogated.

1 **APPENDIX OF FORMS**

2 **[Abrogated (Apr. __, 2015, eff. Dec. 1, 2015).]**

1 **Rule 4. Summons**

2 * * * * *

3 **(d) Waiving Service.**

4 (1) *Requesting a Waiver.* An individual,
5 corporation, or association that is subject to
6 service under Rule 4(e), (f), or (h) has a duty to
7 avoid unnecessary expenses of serving the
8 summons. The plaintiff may notify such a
9 defendant that an action has been commenced
10 and request that the defendant waive service of a
11 summons. The notice and request must:

12 * * * * *

13 (C) be accompanied by a copy of the complaint,
14 2 copies of the waiver form appended to
15 this Rule 4, and a prepaid means for
16 returning the form;

17 (D) inform the defendant, using ~~text prescribed~~
18 ~~in Form 5~~ the form appended to this Rule 4,
19 of the consequences of waiving and not
20 waiving service;

21 * * * * *

22 **Rule 4 Notice of a Lawsuit and Request to Waive**
23 **Service of Summons.**

24 (Caption)

25 To (name the defendant or — if the defendant is a
26 corporation, partnership, or association — name an officer
27 or agent authorized to receive service):

28 **Why are you getting this?**

29 A lawsuit has been filed against you, or the entity you
30 represent, in this court under the number shown above. A
31 copy of the complaint is attached.

32 This is not a summons, or an official notice from the
33 court. It is a request that, to avoid expenses, you waive
34 formal service of a summons by signing and returning the
35 enclosed waiver. To avoid these expenses, you must return
36 the signed waiver within (give at least 30 days or at least
37 60 days if the defendant is outside any judicial district of
38 the United States) from the date shown below, which is the

39 date this notice was sent. Two copies of the waiver form
40 are enclosed, along with a stamped, self-addressed
41 envelope or other prepaid means for returning one copy.
42 You may keep the other copy.

43 **What happens next?**

44 If you return the signed waiver, I will file it with the
45 court. The action will then proceed as if you had been
46 served on the date the waiver is filed, but no summons will
47 be served on you and you will have 60 days from the date
48 this notice is sent (see the date below) to answer the
49 complaint (or 90 days if this notice is sent to you outside
50 any judicial district of the United States).

51 If you do not return the signed waiver within the time
52 indicated, I will arrange to have the summons and
53 complaint served on you. And I will ask the court to
54 require you, or the entity you represent, to pay the expenses
55 of making service.

56 Please read the enclosed statement about the duty to
57 avoid unnecessary expenses.

58 I certify that this request is being sent to you on the
59 date below.

60 Date: _____

61 _____
62 (Signature of the attorney
63 or unrepresented party)

64 _____

65 (Printed name)

66 _____

67 (Address)

68 _____

72 **Rule 4 Waiver of the Service of Summons.**

73 (Caption)

74 To (name the plaintiff's attorney or the unrepresented
75 plaintiff):

76 I have received your request to waive service of a
77 summons in this action along with a copy of the complaint,
78 two copies of this waiver form, and a prepaid means of
79 returning one signed copy of the form to you.

80 I, or the entity I represent, agree to save the expense
81 of serving a summons and complaint in this case.

82 I understand that I, or the entity I represent, will keep
83 all defenses or objections to the lawsuit, the court's
84 jurisdiction, and the venue of the action, but that I waive
85 any objections to the absence of a summons or of service.

86 I also understand that I, or the entity I represent, must
87 file and serve an answer or a motion under Rule 12 within
88 60 days from _____, the date when this
89 request was sent (or 90 days if it was sent outside the
90 United States). If I fail to do so, a default judgment will be
91 entered against me or the entity I represent.

92 Date: _____

93 _____
94 (Signature of the attorney
95 or unrepresented party)

96 _____
97 (Printed name)

98 _____
99 (Address)

100 _____
101 (E-mail address)

102 _____
103 (Telephone number)

104 (Attach the following)

105 **Duty to Avoid Unnecessary Expenses**
106 **of Serving a Summons**

107 Rule 4 of the Federal Rules of Civil Procedure
108 requires certain defendants to cooperate in saving
109 unnecessary expenses of serving a summons and complaint.
110 A defendant who is located in the United States and who
111 fails to return a signed waiver of service requested by a
112 plaintiff located in the United States will be required to pay
113 the expenses of service, unless the defendant shows good
114 cause for the failure.

115 “Good cause” does not include a belief that the
116 lawsuit is groundless, or that it has been brought in an
117 improper venue, or that the court has no jurisdiction over
118 this matter or over the defendant or the defendant’s
119 property.

120 If the waiver is signed and returned, you can still
121 make these and all other defenses and objections, but you
122 cannot object to the absence of a summons or of service.

123 If you waive service, then you must, within the time
124 specified on the waiver form, serve an answer or a motion
125 under Rule 12 on the plaintiff and file a copy with the
126 court. By signing and returning the waiver form, you are
127 allowed more time to respond than if a summons had been
128 served.

Committee Note

Subdivision (d). Abrogation of Rule 84 and the other official forms requires that former Forms 5 and 6 be directly incorporated into Rule 4.
