Dear Team,

I am proud to write this note to a great nation and to the best judicial system.

---Suggestions for new rule

1. There has to be a time stamp on all records (Its a digital world)
2. For visually impaired to refer the portal for education or self use purpose is not possible today, please have some option enabled. (There are millions of visual impaired people in America. Therefore, for working age adults reporting significant vision loss, only 40.2% were employed in 2013.) THEY NEED MORE SUPPORT OR ACCESS TO AMERICAN JUDICIAL SYSTEM
3. Every page must have seal, which is missing (it can be copied or misused, so please have some kind of evidence on each sheet).

I will be very thankful if this can be implemented at the earliest and they deserve access and freedom of knowing the right.

Kind Regards,

G. Madan Mohan
