Dear Rules Committee. I am a hardworking civil tort litigator. I believe any change to 30b6 that would weaken the ability of parties to obtain information from a corporate defendant and to rely on that information would be unfair to the parties and a disservice to our system of justice, which system protects us all (not just the parties to the lawsuit) by preventing corporations from ducking the truth about their actions and ducking their duties to not endanger or harm the rest of us. Corporations want the rights and privileges of being a "person" and thus should have the responsibilities to answer questions the same way persons must. Thank you.
