* Starting in 2000, location categories were revised to improve reporting and reduce the number of instances "other" location was reported.

** Installed intercepts include only those intercepts for which reports were received from prosecuting officials.

*** As of 1998, the average excludes those reports in which the number of persons intercepted, the number of intercepts, or the number of incriminating intercepts was not reported or could not be determined.

**** Some wiretaps terminated in a given year are not reported until a subsequent year because they are part of ongoing investigations.
